

# SAFE ROUTES TO SCHOOL IN MENDOTA

Every student deserves a safe and healthy future. Join others in your community to make it happen!

The City of Mendota is preparing a Safe Routes to School Master Plan thanks to funding from the state's Active Transportation Program. **The City wants to improve the health and safety of the students and residents who call Mendota their home.** The Safe Routes to School Master Plan will lay out how to make that happen for our community!

## GOALS OF THE PLAN:

1. Make it easier and safer for people to walk, bike, and drive to and from schools
2. Increase driver awareness and safe driving habits
3. Improve student health by actively supporting walking and biking to and from school

## YOUR INPUT MAKES A DIFFERENCE.

Other cities in America who put their Safe Routes to School Plans into action see less injuries among their students. Studies have shown that pedestrian injuries decreased among school-aged children thanks to Safe Routes to School plans.

We believe a Safe Routes to School Plan can help make Mendota safer and healthier too, but not without you – our community! As a resident, you know our community best. The roads, the sidewalks, bike paths, and everything in-between.

That's why we want you to help make the Safe Routes to School Plan the best that it can be, for you and for your community.

## HELP MAKE YOUR COMMUNITY SAFER:

1. Join others in the community who are sharing their experience and providing input on where safety improvements are needed through surveys and participation in community events
2. Join our email list to hear about opportunities to find us in your community talking about this project. Sign-up at [www.ci.mendota.ca.us/saferoutes](http://www.ci.mendota.ca.us/saferoutes)
3. Stay updated on the Plan and our activities by following the City of Mendota on social media: "City of Mendota" @cityofmendota
